

Chinese Forces
Sending Troops
To Reinforce
Mukden Fighting

By SPENCER MOOSA
Chungking, March 11 (AP) — Chinese nationalist and communist reinforcements today were reported moving to Mukden, where, the Central News Agency said, the rival forces were battling after sudden withdrawal of Soviet troops.
Chinese press dispatches said that the communists, heavily outnumbered by nationalist troops in the city of 2,000,000 — Manchuria's largest — had occupied the power plant and northern district.
Other reports said the central government had proclaimed martial law in the skeleton city, whose once-great industrial plants had been picked clean by the Russians.
Four Armies Moving
The press reports declared that elements of four nationalist armies were marching to Mukden and that communist reinforcements were moving in from the north. Government elements were identified as from the 13th, 52nd, 1st and 6th armies.
The Central Daily News said the nationalist 14th division entered Mukden Saturday.
The suddenness of the Soviet withdrawal was blamed for the "serious" street-fighting in Mukden. Dispatches said the nationalists did not have sufficient troops to cope with the situation.

No General Evacuation
They said that for the past few days Soviet authorities in Manchuria, from Marshal Rodion Y. Malinovsky, Soviet commander, to junior officers, had been inaccessible to nationalist officials.

The Central News Agency did not interpret the withdrawal from Mukden as a general Russian evacuation of Manchuria. The agency declared that six trains from Mukden had unloaded troops, tanks, artillery and automobiles at Changchun, Manchuria capital.

Yet another report said Changchun was full of rumors that Soviet forces intended to quit the city. No known developments supported this.

Marshall Confering
In Chungking, the Manchurian situation was discussed at a meeting presided over by Generalissimo Chiang Kai-Shek. It also figured largely in talks among General George C. Marshall, President Truman's envoy in China, and various Chinese leaders, including the No. 2 communist, Gen. Chou En-Lai.
Chinese minister of Information W. C. Wu denied a statement in Moscow by the official naval paper, Red Fleet, which declared that China asked the Russians to postpone their departure from Manchuria.

He said that on Dec. 30 it was agreed the Russians should complete their withdrawal from Manchuria by Feb. 1.

POSTS FORFEITURE FINE
Helen Krebs, Baltimore, charged by state police with operating an automobile without a driver's license Sunday afternoon, pleaded guilty before Justice of the Peace Robert P. Snyder, and furnished a forfeiture fine of \$10 and costs.

MEN SERIOUSLY
INJURED WHEN
STRUCK BY CAR

Two elderly McSherrytown men were injured Friday evening when struck by an automobile while crossing a street in McSherrytown. The elder of the two, Martin Hemler, 83, was still unconscious at 1:30 o'clock this afternoon at the Hanover hospital, where both were removed following the accident.

Hemler is suffering from a possible fracture of the skull among other injuries while the other man, Ignatius Krebs, 79, is suffering from a possible fracture of the skull. The hospital reported this afternoon that both were in a "fair" condition but that X-rays to determine the injuries of the two men could not as yet be taken.

Lawrence Smith, 45, McSherrytown plumber, who today went to a Baltimore hospital for treatment on a previous illness, was driver of the car which struck the two men, Maynard Masemer, chief of police at McSherrytown, who investigated the accident, stated.

The McSherrytown policeman was only about 40 feet from the scene of the accident when it occurred. According to Officer Masemer, Smith was driving on Main street between Second and Third streets shortly after 8 o'clock Sunday evening. There is a grade in the road which forced the lights of Smith's car up into the air. When the lights returned to normal, Masemer said, Smith saw the two pedestrians in the middle of the road, but it was too late to avoid them. Smith, Masemer said, was driving "less than 20 miles an hour."

A \$6,315.78 settlement in two actions in trespass brought by Mrs. Pauline L. Miller, West Middle street, against Charles Sheffer, Jr., East Berlin, was approved this morning by the Adams county court.

The case was brought by Mrs. Miller for damages to herself and five other children of the late John H. and Lettie E. Allison who were fatally injured August 5, 1945, in an auto accident in York county two miles west of the Ten Mile house.

One-sixth shares were given each of the children after counsel fees are paid in both of the cases. The action brought for damages due as a result of the death of the father was settled for \$5,473.68 and the settlement in the case brought because of the mother's death was \$842.10.

The children include Mrs. Miller, Mrs. Jean E. Sadler, Dorothy L. Allison, John H. Allison, Jr., Richard L. Allison and Nancy Jane Allison. The Gettysburg National bank was named guardian for the four minor children, Dorothy, John, Richard and Nancy.

Col. Rice Files
Petitions Today

Col. John S. Rice, slated by the state Democratic organization as its candidate for governor of Pennsylvania, this morning personally placed on file with the State Bureau of Elections at Harrisburg nominating petitions that had been circulated in 58 of the 67 counties of the state.

Also filing this morning was Henry Arthur Thomas, Mahanoy City, Schuylkill county, Rice's only opponent for the party nomination at the May primaries.

TWO DRIVERS
CHARGED AFTER
AUTO CRASHES

Two accidents on the county's highways Saturday afternoon both ended with surprises, in the form of informations to be filed before county Justices of the Peace, to drivers involved.

Miss Sara E. Herr, Lebanon R. 4, a student at Messiah Bible college, Grantham, will be charged with failure to yield one-half the highway before Justice of the Peace Elton Myers, Idaville, as a result of an accident at 5:45 o'clock Saturday afternoon just north of Idaville on the Gettysburg-Harrisburg road, state police at the local substation said.

The local police asserted that Miss Herr will probably be surprised at the charge—because she claimed the wind blew so strongly it blew her vehicle, which was going south, into the opposite lane of traffic and into a collision with a car driven by Horace L. Howard, Buffalo, N. Y., who was driving north.

Couple Injured
Howard, police said, was entering a bridge on the north side of Heidelberg when he saw Miss Herr's vehicle come over into his lane of the road. The local troopers added that Howard drove quickly through the bridge and pulled off the right on the north side of the bridge in an attempt to avoid the south-bound car. Howard's wife, Mrs. Mary A. Howard, suffered a bruised left cheek and temple and a bruised chest. Howard suffered bruises of the knee. Total damage was \$350.

The other surprise will come, police say, to Clyde E. Sloat, Orrtanna R. 1, who will be charged before Justice of the Peace H. L. Harbaugh, Fairfield, with reckless driving.
Sloat claimed to be driving south on the Orrtanna-Fairfield road at 2 o'clock Saturday afternoon, police say, when a truck driven by Wilbur L. Laughman, East Railroad street, also going south, passed the car. The truck swung out off the road in order to get around the car, according to police, and in cutting back onto the road after passing apparently touched the front fender of the car. Total damage was 50 cents. Laughman, not knowing there had been any collision continued on home. Sloat called police for an investigation with the unusual result.

Other admissions included William Withrow, 231 South Washington street; Helen Baker, Orrtanna R. 2; Mrs. Arthur Musselman, Gettysburg R. 3; Mrs. Donald Dinterman, Rocky Ridge, Md.; Mrs. Edgar Lockhard, Finkburg, Md.; Hlot C. Snyder, Littlestown R. 2; Mrs. James Shetter, 1066 Carlisle street, and Emory R. Williams, McKnightstown.
Helen Lazos, 153 East Water street, was admitted and later discharged. Additional discharges included Clarence Keckler, Jr., Gettysburg R. 2; Doris Jean Huff, 217 North Stratton street; Mrs. Grace Collins, 126 York street; June Griest, York Springs; Jacob Byers, Delap avenue, and Mrs. Harry Stonestier and infant daughter, Margaret Catherine, Westminster R. 1.

Moul, Democratic chairman of York county, according to news dispatches from York.

Littlestown
NEW UNIFORMS
FOR BAND FROM
CANNING FIRM

The Littlestown Canning company, in appreciation of the help given by the schools in that territory in harvesting crops during the war years, has purchased 36 uniforms for the Littlestown high school band.

In 1944, when the company had an extra large quota of canned beans to fill for the U. S. Navy, and when the early crop failed on account of hot weather, they planted late acreage to make up the deficiency. That fall the schools operated and for several days the boys and girls picked and saved the crop from about seventy-five acres of beans that otherwise would have been lost. With their help the crop was saved and the quota filled one hundred per cent for the navy, company officials said.

"The community can feel justly proud of these uniforms and they will always be a reminder of the untiring effort which the children put forth in a great war for it was in reward for their interest that they were given. In years to come other students will wear them with that same dignity and respect," a company spokesman said.

The uniforms are in the school colors, dark blue woolpeacoats trimmed in gold, with overseas type caps carrying the Littlestown high school in gold letters. They will be complete with white trousers for the boys and white skirts for the girls. Later, when available, they will add a white majorette outfit.

The uniforms arrived last Friday and will be used for the band's spring concert.

QUICK RESPONSE ON FIRE

The Alpha Fire company of Littlestown received a call Saturday afternoon to the home of Milton Study, along the Baltimore pike near the Maryland line. A wood-shed had caught fire, presumably from sparks from a tractor being used to saw wood. The shed was saved but was somewhat damaged. The fire received unusually prompt attention. Cure-Alls Widely Heralded
In County Paper In 1867

The people of an earlier day in Adams county had their wants attended to with much greater dispatch and skill than those of today judging by the advertisements appearing in a copy of The Gettysburg Compiler of 1867 in the possession of Mrs. Clinton Smith, Gettysburg R. 2.

One ad points out: "Whiskers and Mustaches!—Forced to grow upon the smoothest face in from three to five weeks by using Dr. Servigne's Restaurateur Capillaire." Another ad modestly proclaims: "Excelsior! Excelsior! Chastellair's Hair Extremator for removing superfluous hair. To the ladies especially this invaluable depilatory recommends itself." Those who had no hair troubles but who had "physical and nervous weakness, general debility and prostration, loss of muscular energy, impotency" had only to use Dr. Joinville's Elixir, while those with dyspepsia and debility had simply to purchase a bottle of J. P. Dinsmore's Peruvian Syrup which cured, it says in the advertisement, "dyspepsia, liver complaint, dropsy, boils, nervous afflictions, chills and fevers, tumors, loss of constitutional

RED CROSS GETS
FAST ACTION IN
SOLDIER'S CASE

Pfc. David Bowers, Littlestown, found out Saturday that the Red Cross sometimes can obtain a week's extension of leave quicker than a private can get past a first sergeant in order to see the commanding officer.

Private Bowers, stationed at Camp Upton, N. Y., was spending the week-end with his family in Littlestown on a pass that ended at 6 o'clock this morning. Saturday he learned that his father-in-law, Edward Kepner, Medina, N. Y., had died.

The Littlestown soldier contacted Mrs. J. R. Riden, Littlestown home service worker for the Red Cross who called Miss Margaret McMillan county Red Cross executive secretary at 1:15 o'clock Saturday afternoon.

Permission Secured
Miss McMillan called Miss Coward, the Red Cross field representative at Camp Upton, immediately, asking for an extension of Bowers' pass. The military there said that the telegram received at Littlestown was not enough authority and that only the Medina Red Cross could authorize the message. Miss McMillan called Inez V. Reynolds, Medina Red Cross home worker, who in turned called Miss Coward who reported back to Miss McMillan that the authority had been sufficient and that the military was authorizing a seven-day emergency furlough for Bowers.

At 2:30 o'clock, one hour and 15 minutes after receiving the original call from Mrs. Riden, Miss McMillan called back to Littlestown to report that it was all right for the soldier to go to his father-in-law's home. Bowers and his wife left immediately, planning to drive all night to reach the wife's home.

'DURESS' CHARGE
DENIED IN ACTION
ON \$5,000 NOTE

Charges that a \$5,000 note had been signed under duress were denied today by Ethlyn A. Forry, Dallastown, in a plaintiff's answer to the defendant's petition to open judgment filed with the Adams county prothonotary.

P. E. Jacobs, East Berlin, plaintiff in the case, had charged, in asking that the judgment be opened, that Charles Altland and Lewis Jacobs, son of the defendant, were engaged in operating an ice plant at Brunswick, Md., on October 31, 1941, and at that time the elder Mr. Jacobs had gone to the Brunswick plant with some crude oil to test a diesel engine. When he arrived there, P. E. Jacobs claimed in his petition filed February 27, Altland accused him of plotting to burn the ice plant and took the keys to his car from him.

Says Arrest Was Threatened
Jacobs stated in his petition that Altland threatened to "falsely accuse" him "of attempting to set fire to the ice plant unless he signed the note." In order to get back his keys and to keep from being charged falsely, Jacobs says, he signed the note.

The note later was signed over to Mrs. Forry who entered it for judgment. In her answer, Mrs. Forry stated that no attempt was made to force Jacobs to sign, that no charges were made about a fire, and that Jacobs signed "for a valuable consideration."

LT. COL. SHEADS
HELPED COMPILE
HISTORY OF WAR

World War II is the "best covered, historically" of any war in history, Lt. Col. J. Melchior Sheads, North Stratton street, declared today.

Colonel Sheads, former world history teacher at Gettysburg high school and secretary of the county historical society, is now on terminal leave following his separation from active duty at Fort Dix, New Jersey, last week.

The local officer won a bronze star for his work in compiling the history of the Ground Force Reinforcement Command in the European Theater of Operations which handled all of the replacement depots in Europe.

Wrote History at Front
"While the history of World War I is just now being completed, the history of World War II was being written throughout the war," Colonel Sheads told a reporter for The Gettysburg Times.

"Each battalion and separate unit had its historian and historical teams following right behind the front lines, sometimes visiting the scene of battles as they were fought to write the history as it occurred," he added.

"The histories compiled in the lower echelons was sent to higher headquarters and there historical officers sifted the material for their compilations and from there it went on up to other historical officers so that the complete history was being written as the battles went on."

"As historical officer for the GFR I was under a colonel on Eisenhower's staff to whom the material I compiled was sent. In turn my office was receiving the histories from the various replacement depots which in turn got the histories from the battalions under them."

Two Battle Stars
Colonel Sheads, who entered the service January 5, 1942, served for 11 months as a captain in command of an infantry company. Then for nine months he was "S-3", operations and training officer for a regiment. On May 30, 1944, he was transferred to the headquarters of the GFRC then at Cheltenham, England, while still a major to take over the duties of historical officer.

The GFRC had the job of supplying replacements for all units with 1,300,000 replacements pouring through the 14 replacement depots between "D-Day" and "V-E-Day."

Sheads wears two battle stars on his ETO ribbon, for Normandy and Northern France. Before going overseas he was in charge of the training program for the 261st Infantry regiment of the 65th Division at Camp Shelby, Miss.

FOOD RATIONING IN SWITZERLAND OBJECT LESSON

By DEWITT MACKENZIE (AP World Traveler)

Bern, Switzerland, March 11—Europe's greatest non-political problem continues to be food, but little Switzerland, which depends heavily on imports, has averted a national catastrophe by her manner of handling it.

I refer to food as the biggest non-political problem because the world in general gives first place to the question of whether there will be another war.

If there is one—which your columnist refuses to anticipate—it will be political and likely will grow out of the present dangerous revamping of the balance of power.

Whether death by military violence is of more concern than death by starvation may be open to debate. In any event, let's talk about food, because the way Switzerland has dealt with—and is dealing with—this vital subject is a revelation of her character, and an object lesson to a world which is divided against itself and badly needs team work.

After the Munich conference in 1938 the government, realizing that Europe faced a crisis, began to help food importers with loans at small interest in order to buy great food supplies.

When Hitler struck at Poland on September 1, 1939, the Swiss army was mobilized for defense. There was in the ranks a private by the name of Arnold Muggli, and the minister of economics promptly summoned him to Bern. To Muggli's amazement the minister said:

"You're the only one capable of organizing rationing. I want you to undertake it."

Not to make too much of a mystery of the Muggli drama, he had been an organizer of banks. Rationing was an unknown quantity to him but he tackled it, and, finding no guidance in any foreign rationing plan, he created one of his own on the high moral code that "if everybody cares enough and everybody shares enough, everybody will have enough."

This called for national self-discipline and responsibility on the part of every person in the country, especially the women folk. It not only pulled Switzerland through the war but it's the one under which Mrs. Mack and I are getting our food now—and excellent provender it is, too. Every family always has its share. Muggli inaugurated personal contact with the people, and he not only used the radio and public conferences but set up a committee of women to advise him on household problems. He discussed all matters with the whole country. When his office made a mistake he promptly admitted it and made a fresh start. As a result he soon became one of the most popular figures in Switzerland—and that's something for a rationing chief.

This system of teamwork has worked so well that 23 foreign governments have sent commissions to study it. Meantime food production has been increased from enough to feed 2,000,000—or half the population—to enough for 3,500,000. And there has been virtually no black market in food.

RUSH ORDER TO PAVE WAY FOR MORE BUILDING

By MARVIN L. ARROWSMITH

Washington, March 11 (AP)—The government is rushing final touches on a new order designed to slash commercial and industrial construction so more homes can be built.

The measure, in preparation several weeks and scheduled for announcement soon, will be "drastic and far-reaching," according to officials who have seen a preliminary draft.

These officials, who asked that their names not be published, said the order will hold up construction of thousands of non-essential stores, office buildings and factories still in the blueprint stage.

But they predicted it will hit hardest at proposed roadhouses, night clubs, theaters and other amusement projects. "These will not be banned entirely, but builders will have to show there is a community need for such recreational facilities."

The new order is being drawn up by the Civilian Production Administration and the National Housing Agency. They figure it will channel well over two-thirds of all building materials to residential construction.

No Stop Order Yet

"There's no alternative," said one official, "with the goal 2,700,000 new homes during the next two years."

There has been no decision yet whether to halt work on some commercial and industrial projects already underway.

CPA reportedly is opposing such a step because of the difficulty of where to draw the line. The agency also is making the point that it lacks an adequate field staff to enforce a stop-construction order of that kind.

HOTEL STRIKE SPREAD FEARED

Philadelphia, March 11 (AP)—A strike of 275 Adelphia hotel workers, seeking pay increases of six cents an hour, may spread to five other downtown hotels idling 2,500 employees in a sympathy walkout, AFL leaders indicated today.

Ray Turchi, business agent for one of five AFL unions involved in the hotel dispute, said a sympathy strike would paralyze service at the Benjamin Franklin, Bellevue-Stratford, Ritz-Carlton, Sylvania and Walton hotels.

Turchi said the Adelphia's dining rooms were shut, beds were not made, elevators were not running. He added AFL taxi drivers were asked not to discharge passengers at the hotel.

A spokesman for the Adelphia said the strike, begun Saturday in support of demands for a 16 per cent wage increase and a 40 hour week instead of 44, had made the hotel "60 per cent empty."

Turchi said management offered increases amounting to three and one-half cents an hour.

New Castle, Pa., March 11 (AP)—Irvin C. Herge, 43, of Ellwood City, pleaded guilty to murder today as he was about to go on trial for the slaying of Jean Fatur, 20-year-old Ellwood City girl whose body was found in the Maumee River near Napoleon, O., last October.

MORE CLOTHING EXPECTED SOON

Washington, March 11 (AP)—Government and industry officials expressed confidence today that price increases authorized for clothing will wash out the hoarding they say has been going on.

But just in case higher prices don't turn the trick, the Civilian Production Administration is about ready with a new order which it expects will close any remaining loopholes.

OPA's latest price adjustments apply to men's and boys' suits and coats and to a few other scarce apparel items, such as jackets and trousers.

The new order permits manufacturers to base their prices generally on current rather than March, 1942, costs. But it requires them to use markups of three years ago instead of the higher markups of last August which have been in effect.

This, OPA said last night, will mean higher retail prices for garments made by some firms. Others, the agency added, will have to cut prices, particularly if they have turned to more expensive merchandise since 1943.

Louis Rothschild, executive director of the National Association of Retail Clothiers, predicted the new regulation will put on the market at least 700,000 suits which he said manufacturers have been holding for better prices.

"This should break the dam," Rothschild told a reporter.

There also was criticism of the OPA move. Leo Goodman, secretary of the CIO Cost of Living committee, said the only effect "will be a 20 per cent increase in the cost of men's suits, thus further lining the industry's pockets while gold while keeping returning veterans from securing much needed clothing."

Sun Oil Launches Conservation Of Gas

Philadelphia, March 11 (AP)—A \$4,000,000 program to conserve natural gas, including the construction of nine processing plants in Texas, Louisiana and Michigan, was launched today by the Sun Oil company.

James E. Pew, manager of the company's natural gas and natural gasoline division, announced more than 65,000,000 cubic feet of gas daily will be saved by the plan. He added Sun oil intends to collect and sell approximately 6,000,000 cubic feet of waste flare gas daily in the Beaumont, Texas, area.

Pew said construction of the processing plants will begin immediately. A natural gasoline plant and a gas storage compressor plant, costing about \$1,000,000, is scheduled to be built in the Sun and North Sun fields in south Texas, Pew said.

SETTLE DAMAGE

(Continued from Page 1)

ter in the divorce action of Betty Jane Carter against Robert L. Carter, York street.

Donald Bowers, Littlestown, received some instruction from the court on his rights as a veteran of World War II along with instructions to pay more for the support of his wife and three children during the course of the court session.

Tell Vet His Rights

The support order of \$6 a week which Bowers had been paying for the support of his wife, Ida, and one child was increased to \$15 for the wife and three children. Bowers told the court he was working as an apprentice painter earning 50 cents an hour and that the pay of a

journeyman painter was \$1 an hour. The court told him to investigate the apprentice training payments made to returned veterans pointing out that he could secure up to \$90 a month from that source in addition to his apprentice pay.

Six accounts were confirmed and approved and the desertion and non-support case brought by his wife against Lawrence H. Hinkle, Chambersburg street, was continued to April 19. Hinkle, the court was told, is suffering from a broken leg.

The parole of Ernest Thorpe, Winchester, was extended 90 days to allow him to pay off the last \$190 of over \$1000 which had been obtained by a fraudulent conversion. The court was told that Thorpe had been very prompt in the payments and needed only the extra time to complete the payment.

Sweet Peas Are Easy To Grow

Every flower grower should have a bed of early sweet peas to bring their dainty and colorful reward of bloom to the home grounds. They are extremely hardy, when afforded the type of soil and location they demand, and in many localities they find a ready market in towns and cities. Like their close relative, the garden pea, they may be planted as early this month as soil can be prepared, as the plants are immune to injury by light frosts.

Most failures with sweet peas result from one or more of five causes: (1) Acid soils; (2) Faulty drainage; (3) Lack of soil moisture during the blooming season; (4) Deficient fertility; and (5) Plant lice. These are listed in the probable order of their occurrence and importance.

Like other members of the legume family of plants to which they belong, sweet peas demand a deeply mellow loam into which their long roots can delve unhampered in search of stored moisture and plant foods. To plant them in shallow or

hard soils invites failure before starting. In fact, they require about the same general type of soil as do garden peas. Well rotted manure, finely pulverized and turned under at least a week or two before planting time, along with some rich fence row loam improves most soils for this plant. If there are any doubts about soil acidity, apply some lime when preparing the soil. A few handfuls of 4-12-4 fertilizer worked into the top soil before planting time is usually beneficial.

It is a wise precaution against drought to plant sweet peas in a trench, although seed need not be covered deeper than 1½ inches. But as growth develops more soil is worked around the plants gradually and deeper rooting is thereby promoted. If growth is slow after the plants are well through the ground, one or more light side dressings with nitrate of soda pays excellent dividends in more rapid and vigorous growth and better blooms. Of course, this should be worked lightly into the soil 2 to 3 inches from the plants so it does not come into contact with leaves, stems or roots.

If plant lice (aphids) attack the plants any time before blooms begin to open, combat the pests at once with a spray of nicotine sulphate at the rate of 1 to 1½ teaspoonfuls to a gallon of water in which a 1-inch cube of ordinary laundry soap or 2 or 3 level tablespoonfuls of soap flakes has been dissolved. It is necessary to coat the lice liberally with the spray to cause death.

Cultivation should be light, with eradication of all weeds and maintenance of a loose soil mulch the chief aims. Late afternoon is the best time to cultivate.

If dry weather occurs just before or during the blossoming season, the soil should be soaked to a depth of several inches at least twice a week. However, the sprinkling habit should be avoided; it is more injurious than beneficial.

By removing faded blossoms daily the blossoming season is considerably prolonged.

Wise growers will plan to have at least a small bed of sweet peas planted by March 15, with success.

PEACE GARDEN TO HOLD DOWN LIVING COSTS

Millions of home gardeners are debating this spring how large a vegetable plot to sow, now that peace has come. Victory gardens saved the nation from food scarcity. Is that danger over?

Whether it is or not, high costs seem certain to continue in commercial production. Leisure hours

spent growing food will probably pay a high return for years to come. The home vegetable plot will go far to hold down the cost of living.

And another reason will influence many. The quality of vegetables fresh from the garden has become known to millions who never before realized how delicious they could be. They have enjoyed luxury food of such supreme flavor and tenderness, that vegetables assumed a new importance in their diet. This, nutritionists tell us, is to be desired.

Science has developed many new facts about the loss of vitamins when vegetables grow stale. It has long been known that the sugar content of sweet corn, peas and several others rapidly changes to starch after they are picked, with consequent loss of flavor.

"Holding freshly picked peas in a warm room for three to four hours will materially toughen the skins," says extension bulletin 244 from the University of Michigan. And one to two-thirds of their original Vitamin C, the bulletin continues, may be lost by vegetables in 24 hours at room temperature.

The quicker they are eaten, frozen or canned, after being harvested, the more delicious vegetables are. And the time is brief, indeed, before the keen edge of their flavor begins to grow dull.

"Garden Fresh"
Paul W. Dempsey of the Massachusetts State college says in his excellent book *Grow Your Own Vegetables*: "Vegetables should be used as soon after picking as possible. Time is one of the elements that favor the home gardener—uncooked vegetables on the table in less than fifteen minutes, and cooked

who grow their own can enjoy. America has much to gain from the expansion of home garden which seems certain to follow the war.

Homes and communities will be beautified by flowers; and vegetables grown in back-yards will notably improve the health and contentment of those that grow them.

That seems an extreme view. For those whose gardens are not close to the kitchen door it would make harvesting a foot-race. But authorities agree that, to be truly "garden fresh," vegetables must be served within an hour or two of harvesting; so that to eat them is an experience which few except home gardeners

Today's Talk

By GEORGE MATTHEW ADAMS
JOURNEY TO YOURSELF

There are those who have journeyed to the far ends of the earth, seen China, Africa, the South Seas, Europe, Iceland, South America, and returned to tell of their sights and experiences without ever having touched the shore of themselves. All their travels outward, none within.

We ought to spend more time at home—with ourselves. Getting acquainted, discovering the treasures planted within us. Who can imagine the journeys that Edison took with himself, as he journeyed through thousands of paths and thickets to arrive at the lucky time when he should play the card that would mark him a winner! No frivolous plays for him. His mind and all his efforts were centered upon a destination whose secret for its attainment he knew was to be discovered within himself.

No wonder we know so little about other people when we know next to nothing about ourselves. Why don't we get acquainted? He is happiest who has learned to get along with himself, and to make friends with what he has stored away. Our very memories are a part of the texture of our lives. When we let loose of them, we part with the substance of our minds, our bodies, and our choicest spiritual gains.

President Wilson once wrote a delightfully inspiring brief book, called "When a Man Comes to Himself." Journeying within are to be found the greatest sights and treasures—everything on which to build and grow. There is nothing greater than self-discovery!

Not until Montaigne shut himself in his castle, and began to take note of himself, did he create his immortal essays—and they were all founded upon the knowledge he gained by taking himself apart, analyzing himself, and revealing himself, honestly and nakedly, to the world. His one great book was so much himself that he would tell his friends that if they wanted to know about him, to go out and buy his book. And it was such an honest and frank portrayal that it has become a classic, though written several hundred years ago.

Journey to yourself. It is better than a trip to any place upon this earth!

Tomorrow Mr. Adams will talk on the subject: "Minding One's Own Business."

Madras, on the eastern coast of India, was the first territorial possession of the British East India company.

Out Of The Past

From the Files of the
Star and Sentinel and
The Gettysburg Times
ONE HUNDRED YEARS AGO

Rev. Cyrus E. Waters, a graduate of Pennsylvania college, was ordained a Minister of the Episcopal church, on Sunday at Hagerstown by Bishop Whittingham.

Married: On the 7th inst., by the Rev. E. V. Gerhart, Mr. Philip Beamer, sen., to Mrs. Sarah Orner, widow of Felix Orner, deceased, both of Mennal township.

On the 1st inst., by the Rev. Mr. Scherer, Mr. John Stock to Miss Maria, daughter of Mr. Andrew Dearthoff, both of Hamilton township.

On the 5th inst., by the Rev. C. P. Hoffmeier, Mr. Ferdinand Meals, to Miss Catherine Fehl, both of Mennal township.

Tuesday is St. Patrick's Day: Great preparations have been made in the different cities for its celebration.

"The Standard:" We observe in the last number of this paper, that Mr. Bringham intends discontinuing the publication of it after the issuing of three more numbers. We learn that he has purchased an interest in the "Democrat," Westminster, Md.

Died: On Wednesday evening, Barbara Jane, infant daughter of A. B. Kurtz, Esq., of this borough, aged 2 months.

On Friday an infant son of Dr. Wm. P. Bell, of this borough.

Hands Off! The people of Newburg, Cumberland county, it is said, are making efforts to have a new county formed out of parts of Cumberland, Franklin and Adams, to be called De Kalb!—What part of the "Young Guard" they desire to lop off, we have not heard; but we think they will find very few citizens of our noble little county willing to be separated from her.

Morse's Magnetic Telegraph has been adopted by the Austrian government; and it is to be extended from Vienna to Prague, a distance of nearly 320 miles.

SEVENTY-FIVE YEARS AGO
Removed: David Kitzmiller has removed his Boot and Shoe store from York street to Baltimore street, opposite the Star and Sentinel office.

At Home: Hon. Edward McPherson made a brief visit during the past few days. He is looking well with evidently improved health. He will return to Washington Wednesday to remain until Congress adjourns.

Married: Hauptman—Sheely.—On the 5th inst., by Rev. C. Scheel, Mr. John Hauptman to Mrs. Mary Ann Sheely, of White Hall, this county.

Palmer—Staley.—On the 23rd ult., by the Rev. C. Scheel, Mr. Alfred Palmer to Miss Lucinda Staley, both of this county.

McCarney—Oyler.—At the Lutheran parsonage, in Ardenville, on the 7th inst., by Rev. M. Snyder, Mr. John D. McCarney, to Miss Sue A. Oyler, both of Franklin township.

Coke and Gas Tar: The Gettysburg Gas Company have on hand a lot of Coke and Gas Tar, which will be sold on reasonable terms. Apply to Henry Barbrahem, superintendent of the Gas Works.

Died, Christman.—On the 9th inst., in this place, George Christman, aged 80 years, 7 months, 5 days. Funeral Friday afternoon. Deceased was one of our oldest and most respected citizens and an exemplary Christian, of kindly disposition, and an honest man.

Moore.—In this place, on Tuesday, Mr. Levi Moore, aged 45 years, 4 months and 2 days.

The re-election of our townsman, Hon. Edward McPherson, as clerk of the House of Representatives, is a compliment of which he and his friends may well feel proud. The position is one of influence and responsibility, is sought and has been filled by men of national reputation, the same person seldom filling the position two terms in succession. A reelection for five successive terms is unprecedented. The compliment is more marked, in that a re-nomination was unanimously tendered by the Republicans of the House, no candidate being presented against him. The Democratic members, of course, formally recorded their votes for their own caucus nominee, but we have reason to know they share, with the Republican members, confidence in his administration.

Mapleton Seminary will open its spring term 4th month, April 3d, 1871, for boarding and day scholars. It is situated one mile south of Bendersville. Pupils of both sexes are admitted. The term will continue twelve months. For Circulars or further particulars, apply to CHARLES J. TYSON, or MARIA E. TYSON, Flora Dale, Adams county, Pa.

General News: United States troops are to be sent to the Kukuk districts of Kentucky, to prevent the recurrence of recent outrage.

Family Forced Out
In Night Clothing

Rural Valley, Pa., March 11 (AP)—Fire raged for several hours through a 40-year-old building and an ad-joining house in this Armstrong county community yesterday. Assis-tant Fire Chief Louis Schrecongost estimated loss at \$100,000.

Grocery, radio, furniture and hardware stores in the building, a two-story frame structure, were heavily damaged, and members of the Joseph Devorio family were forced to flee in their night clothes.

The adjacent house, occupied by Mrs. Ellen Bowser, was left a shell. Flames also scorched several homes across the street, and fire companies from Kittanning, 12 miles away, Forest City and Marion Cen-ter were called in to help Rural Val-ley firefighters bring the blaze under control.

The Caps made sure of finish-ing no lower than a tie for first by beat-ing the Cleveland Barons, 5-2, last night. However, they have only one game left to play while the runner-up Pittsburgh Hornets, who trail the Caps by six points, have three.

The Caps will be idle all week until they meet the Hornets Sunday the last day of the season. Pitts-burgh will have an opportunity to pull abreast of the Caps as they meet the Cleveland Barons and the Hershey Bears this week. The Hor-nets must win all of their remain-ing three contests in order to dead-lock the Caps for the lead.

Bisons Break Records
Buffalo, eastern division flag winners, set two records as they de-cisioned the providence Reds, 4-1 last night. The victory was the Bisons' 36 of the year, topping the previous mark of 35 established by Hershey in 1942-43. It also brought the Bisons' point total to 80, two more than the record garnered by the Bears three years ago and by the Barons last season.

In the circuit's other contest last night, the Bears trounced the New Haven Eagles, 8-2. The victory clinched second place for the Bears in the eastern division.

Chapter 11
Back in her own room, with the light turned on and the door locked, she tried to think coolly.

"Of course, they may have just moved Uncle Rufus into another room," she said to herself.

The suddenly she rebelled. "No!" she thought. "It's cowardly and contemptible to go on this way, making up explanations for everything, pretending there can't be anything wrong. Suppose there is, and I'm just letting it go on? I ought to make sure. I've got to see Uncle Rufus with my own eyes."

There was a knock at her door. "See here!" said Aunt Emma. "Will you be good enough to come down to dinner at once? Doctor Coat and Mr. Purvis are hungry."

"Then I'm sorry for them," said Di, and opened the door. "Aunt Emma," she said, "where's Uncle Rufus? I want to his room, and he wasn't there?"

"Nevertheless, he is in his room," said Aunt Emma. "Perhaps with your customary ineptitude you went to the wrong room. It's not likely that he's gone out for a walk."

"I'd like to see him."

"Unfortunately, he wouldn't like to see you. He never wants to see any-one but Wren in the course of these attacks. Tomorrow, when he's better, you can see him. And in the mean-time, why not come downstairs and tell Doctor Coat and Mr. Purvis our suspicions? A doctor and a lawyer—you couldn't ask for any-thing better."

There was something in the older woman's cold insolence, something in her voice, her look, that was beginning to tell heavily upon Di. She resented it, yet in her resentment there was a sort of despair, as if her spirit warned her that she was no match for this woman. In every encounter she was worsted; each time Aunt Emma was able to con-vince her that she was a fool.

They all sat down to that atroc-ious dinner, and though the stout Mr. Purvis looked rueful, neither of them seemed surprised. They were apparently at home here, and ac-customed to Aunt Emma's style of living; and they talked, without con-straint, of Uncle Rufus.

"Do you think there is any chance of his seeing me tonight, Emma?" asked Mr. Purvis. "If there is, of course I'll wait as late as I can."

"I don't know," she said. "Any-how, he asked for you, and he knows you're here."

"Poor Rufus!" he said, with a sigh.

"Well," said Doctor Coat, in his comfortable and kindly way, "he's been through a great many of these attacks. And with Emma's splen-did care, we'll hope that he'll come through this one. There's really no need for me here. Although, of course, I quite understand how you feel about it, Emma. If anything should happen there'd be criticism . . . Yes . . . quite so . . . If he can be persuaded to make a will, he'll feel very much better. Set his house in order . . . quite so!"

Then he turned to Diana. "I hear he's taken a great liking

to you," he said. "Very nice, I'm sure."

"I don't know," said Di. "I'm afraid—"

"She's almost morbidly self-dis-trustful," said Aunt Emma, inter-rupting. "Like her poor mother."

Mr. Purvis and Doctor Coat both looked at Di with a sort of sym-pathetic.

A silence fell.

"I'm going to meet Mr. Fennel at nine o'clock," Di was thinking. "I'm going to tell him every single thing, and get his opinion. I want to know if I'm just a morbid idiot, imagining things or if there's any reason for being—uneasy. He's an outsider, he'll be unprejudiced."

Half-past eight. She was grow-ing restless and impatient, looking down at her wrist watch under the table.

Aunt Emma had risen and every-one rose too, and proceeded toward the lounge. Twenty minutes to nine now.

"Come, Diana!" said Aunt Emma. "I think I'll go out—and get a breath of fresh air," she said.

"Miles will go with you."

"No thanks," said Di. "I'd rather go alone."

She was aware that everyone was listening; she was aware that her wish to go out alone surprised them all. But she was desperate. It seem-ed to her a matter of vital im-portance that she should conquer, should go out openly and freely.

"I'm sorry," said Aunt Emma, composedly. "But I can't permit it, my dear. This is a very lonely spot. If you object to Miles' conversa-tion, he can walk behind you."

She was beaten. She could not say she was going out to meet a man—"like a servant wench" Uncle Rufus had said. And what is more, she did not need to tell Aunt Emma that. Aunt Emma knew already.

They all passed into the lounge and sat down; all except Diana. "I will go!" she thought. "And I'll go openly, too."

Di opened the front door and stepped out.

Liberty Ship Mate
Is Held In Shooting

Camden, N. J., March 11 (AP)—Will-iam Chatman, 38, first mate on the Liberty Ship Anna H. Branch, has been convicted on a charge of atrocious assault and battery in the shooting of the ship's boatman when the ship was moored at Glouc-ester, N. J., Feb. 16.

The all-woman jury, which reach-ed the verdict Friday in Cam-den criminal court, at the same time acquitted Chatman of a charge of intent to kill. Judge Batholomew Sheehan did not set a date for sentencing.

GREENCASTLE BOWS TO CAMP HILL QUINTET

Approximately 1,000 fans saw Bernie Thrush's Camp Hill high cagers, defending Class B District 3 PIAA champs, eliminate Greencastle high, Franklin county league kings, in a quarter-final game on the Gettysburg college court Saturday evening, 41-23.

The sliding zone defense employed by Camp Hill, combined with a fast breaking offense, proved too much for Greencastle.

Greencastle got off to an early lead on a foul and goal by Rowe before Denison looped a shot for Camp Hill. Rowe converted another free toss before Slike sank a long pivot shot from the side to knot the score. Boose made good on two foul tosses to put Camp Hill ahead and the Thrush-men never lost their lead thereafter.

Lions Run Wild
The Lions moved out in front, 18-10, in the first period and then tabbed 11 straight points in the second quarter before Rowe landed a set shot just before the half ended. Camp Hill had a commanding 29-12 lead at the intermission.

Greencastle played improved ball in the third period and held its opponents to a pair of fouls by Denison while Rowe looped a pair of goals and a foul. At the end of the third period Camp Hill led 31-17.

Camp Hill regained its offensive form early in the final period to tally five straight points on a foul and pair of goals and the outcome was decided. In the final minutes Coach Thrush sent in his second stringers to wind up the contest.

Rowe was easily the outstanding performer for Greencastle while Boose took the scoring honors for the winners.

SNEAD HAILED AS GOLF'S BEST

Miami, Fla., March 11 (AP)—Virginia's Slammin' Sammy Snead, was being hailed today as perhaps the person who will become Mr. Golf in 1946, despite the Nelsons and the Hogans.

With teammate Sammy Byrd, of Detroit, Snead lost to Benny Hogan, of Hershey, Pa., and Jimmy Demaret, of Houston, Tex., up on the 36th hole in Miami's \$7,500 international four-ball golf tournament yesterday, but it was the Hot Springs, Va., golfer who was almost unanimously picked as the outstanding player in the 21 annual affair.

More than 5,000 Miamians and visitors will remember Snead as the yellow-shirted, serious golfer who stood on bare soil beside the 35th fairway, 175 yards from the pin and two down, yesterday to send a screaming five iron shot to within two feet of the pin and sink the putt for a birdie three to take the hole and put his team back in the running.

Snead and Byrd were forced to go 40 holes before defeating Byron Nelson and Harold (Jug) McSpaden in the semi-final round.

BALL PLAYERS GET CHANCE TO REJOIN CLUBS

By JACK HAND
Havana, March 11 (AP)—Commissioner A. B. (Happy) Chandler left the door wide open today for all of baseball's wandering sheep to return to the fold before the opening of the U. S. league's seasons but held over their heads a threat of at least five years suspension for those who refused.

While inviting the "contract breakers" back in line, Chandler revealed that Cuban Sports Commissioner Luis Rodriguez had been given permission to act as a mediator in the hope of establishing uniform baseball contracts in the United States, Cuba and Mexico.

Chandler previously had refused definite comment on contract jumpers but now the way was open for almost all ineligible to return. The commissioner ruled, effective immediately, that any player who broke a contract shall report to his club in organized baseball by opening day of the league to which the team belongs, and that in the future, any player who breaks a contract in organized baseball shall be suspended for five years.

Housecleaning Promised
The Cuban leaders promised to clean house and not to allow ineligible players to play next winter. Chandler agreed to help them establish uniform contracts and reorganize their circuit.

The commissioner also disclosed that 54 players were under investigation for playing in the Cuban league after the prescribed time limit of 10 days after the close of the major league season or 31 days after the end of the minor league season or for playing against ineligible players.

By TOM SHRIVER
Harrisburg, March 11 (AP)—Summit Hill, winner of the Black Diamond league crown after a play-off with Mahanoy City, moves into the District Eleven semi-finals tonight by clashing with Frackville, winner of both first and second half crowns in the North Schuylkill league race at Rockne Memorial hall, Allentown.

Meanwhile Sayre, contender for District Four honors, meets Coal Township, winner of the Keystone league race, at Bloomsburg State Teachers' college in another semi-final fray leading to the crowning of district title-holders.

These two games on tonight's list mark the start of the final week of playoffs, with 29 teams still in the fight for 11 district crowns, the survivors of a field of 494 teams that started out last December with high hopes of a successful season.

Included in the list of 29 survivors are four of last year's district champions: Radnor in One; Chambersburg in Three; Sharpville in Ten; and Allentown, state champion, in Eleven.

Still In Race
Other contenders who are still in the spotlight for state championship laurels are Lower Merion in One; Lancaster in Three; Williamsport in Four; unbeaten Altoona in Six; Homestead and Sharon in Seven; and the mighty Warren Dragons in Ten.

In the feature games on tomorrow night's list Radnor clashes with Lower Merion at Villanova; Chambersburg plays Lititz at York high; Altoona risks an unbeaten season by playing Mt. Army Boxers Win Memorial Trophy

West Point, N. Y., March 11 (AP)—Army's talented boxing squad today held the Edward J. Neil memorial trophy, emblematic of the intercollegiate boxing association championship, and four individual titles to go along with it.

The Cadets piled up 29 points in the team race to dethrone the coast guard academy ringmen, who finished third with 11. Virginia, with two individual champions, was second with 16 points. Syracuse and Penn State brought up the rear with nine and eight points respectively.

John Benglian of Penn State won the 127-pound title.

tomorrow's 18-hole scores also will help determine the cash winners.

Big Boom Glimpsed In Fishing Business

Washington, March 11 (AP)—Life will be one temptation after another for the poor fish this season.

Close to 9,000,000 lures will be dangled under his nose in fresh waters from Maine to Calif., and from Florida to the great northwest, the Fish and Wildlife Service indicated today. Seeking much-needed wartime recreation, 8,280,232 persons bought fishing licenses during the fiscal year ended June 30, 1945. This was an increase of 449,755 over the previous year, and included 385,648 Pennsylvanians.

With the post-war fishing boom already under way, further increases in the number of anglers are expected this season.

On the dollars-and-cents side, fishermen poured \$10,580,311 in revenue from licenses into treasuries of the 48 states for the 1944-45 season, compared with \$9,840,073 the year before. Pennsylvanians paid a total of \$622,306.
